PRODUCT CONCEPT

Pylsact tablets are a potent, safe anti-hemorrhoidal combination of herbs for the treatment of 1st and 2nd degree piles, fissures and an adjuvant to the treatment of fistula in ano. Pylsact tablets contain time tested herbs which are Arshoghna (eliminates piles mass completely). The entire formulation offers potent therapeutic modality directed towards providing faster relief from pain, itching, bleeding, burning sensation associated with hemorrhoids and fissure, and also helps “cast off” piles mass. Pylsact tablets accelerate healing without any adverse effects. Pylsact tablets also help improve digestion and regulate the bowel to prevent constipation and avoid recurrence or relapse of the condition.
